HTML Structure

```html
1   <div id="page">
2       <header id="masthead" class="site-header" role="banner">
3           <div class="container">
4               <div class="col-sm-12">
5                   <div class="site-branding">
6                       <!-- Site Name and logo -->
7                   </div><!-- .site-branding -->
8                   <nav id="site-navigation" class="main-navigation navbar-collapse collapse" role="navigation">
9                       <!-- Naviagtion Here -->
10                  </nav><!-- #site-navigation -->
11              </div>
12          </div>
13      </header><!-- #masthead -->
14      <div id="content" class="site-content">
15          <div class="container">
16              <div class="col-md-8">
17                  <div id="primary" class="content-area">
18                      <main id="main" class="site-main" role="main">
19                          <!-- Primary Content area -->
20                      </main>
21                  </div>
22                  <div class="col-md-4">
23                      <div id="secondary" class="widget-area" role="complementary">
24                          <!-- Secondary content here -->
25                      </div>
26                  </div>
27              </div>
28          </div>
29      </div>
30      <footer id="colophon" class="site-footer" role="contentinfo">
31          <!-- footer content -->
32      </footer>
33  </div>
```

Brood is responsive template with two columns. All of the information within the main content area is nested within a div with an id of "primary". The sidebar (column #2) content is within a div with an id of "secondary". The general structure is the same throughout the template.

CSS Files and structure

I have used three css files in this template. These files are:-

- style.css - It is the main stylesheet where all the rules have been defined.
- bootstrap.css - This is framework stylesheet.
- Owl.css - This file is used for styling the owl carousel.

the style sections in the main(style.css) file are as follows:-

- Global - It includes style rules which are applicable for all the elements in the template
- Common - Rules with common styles
- Typography
- Header
- Primary - style rules for main content
- Secondary - Style rules for sidebar
- Footer

Javascript

Four jquery files being used in this template. these files are:-

- jquery.js
- owl.js - plugin for carousel
- bootstrap.js
- script.js - this is the custom js file specific to this temple. It is use to initiate plugins and other jquery tweaks.
- Modernizr

Fonts

There are three fonts being used in this template for text and icons.

These fonts are as follows:-

- Google Fonts
  - Lato
  - Oswald
- Fonts awesome for icons

Credits

- Owl carousel -
- Bootstrap
- Google fonts
- Font Awesome
- Images - pixabay.com
- Modernizr

Support

Future Updates

We will be adding more features to this template in the near future. Some of these features are:-

- LESS version
- Fourth Home page variant- a slider with multiple posts within front view.
- Related posts slider under single post.
- Instagram widget in footer area.
- Much more…
